

Workbook for Ideation (Multi-Purpose Concepts)

Name of Student: Soham Rudani

Name of Product: Smart Plug

Main purpose: Smart control + safety for electrical devices

Other purposes: Energy saving, automation, monitoring

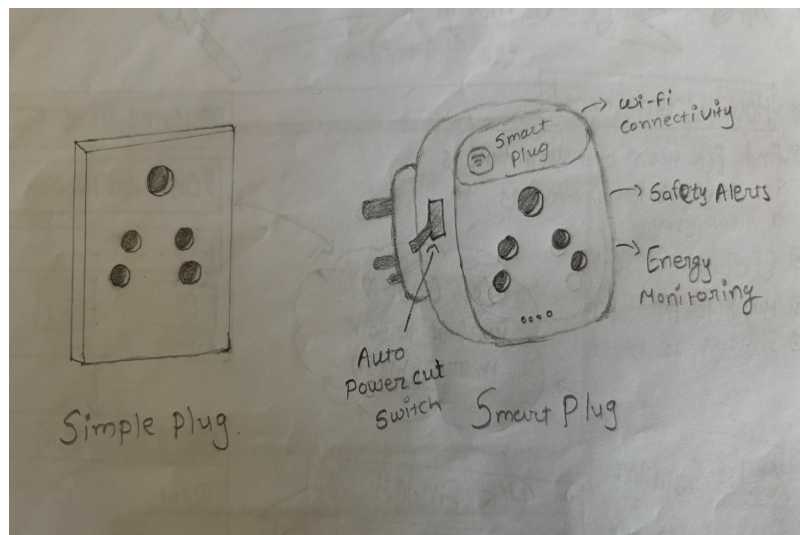

How it works: Uses sensors and WiFi module to monitor and control power supply.

Workbook for Ideation

Concept Name: Smart Plug Automation System

How Might We: Improve safety and reduce power wastage?

How it works: Plug connects to app, monitors energy, auto cuts power during overload.
